

Design Space

**design concepts**

privacy                      continuity                      enclosure                      [*building codes*]

**QSA**

facing                      positioning                      visibility                      proximity                      sequences

Quality Space

**qualitative spatial relations**

orientation                      topology                      distance

**spatial ontology**

centroid                      point                      directed point                      extended region                      line

Quantity Space

**geometric features**

structural geometry                      artefactual geometry
